Gonzalo Fontana Santibáñez

Full-Stack Engineer

Email: contact@gonzalofs.com **Website:** gonzalofs.com **LinkedIn:** gonzalo-fs

Based in **Valencia, Spain**

I'm a Full-Stack Engineer with 5+ years of experience working at a Fintech SaaS startup, where I navigated our acquisition by VISMA, a European tech giant. Thriving in this fast-paced environment requires high autonomy, so my workflow is built around taking full ownership of features from idea to production. While my daily stack is Laravel and Vue, my foundation is language-agnostic. I'm an engineer at heart who relies on strong principles (OOP, SOLID) rather than specific tools. I use AI as a smart assistant to adapt quickly and speed up syntax, keeping me focused on architectural decisions and delivering robust solutions.

Skills

Tech stack

Backend: Laravel, PHP, RESTful APIs, Eloquent ORM, MySQL, MariaDB, Livewire

Frontend: Vue.js, JavaScript, Nuxt.js, Astro, Inertia.js, Tailwind CSS, Vuetify, HTML5, CSS3, jQuery

AI: Cursor, Copilot, OpenCode, Antigravity, Codex, LLM Orchestration & Routing, MCPs & AI Skills

Testing & Security: PHPUnit, AI-Driven Test Automation, Snyk, Aikido, Cybersecurity, OWASP top10

DevOps: Git, CI/CD with GitHub Actions, Docker, Sentry, DNS & Domain Management

Other useful knowledge

Methodologies: Agile (Scrum & Kanban), Clean Code, SOLID, OOP, DDD, SDD

Tools: Jira, Figma, VS Code, HubSpot, WordPress, PrestaShop

Languages: English (Advanced - C1), Spanish (Native)

Recommendation

"*Gonzalo has a very strong technical profile and is a natural problem-solver. He never backs down from a challenge and is always the first to step up and help the team. His leadership in our engineering onboarding process has been outstanding, and he successfully took full ownership of our public-facing web development.*"

— **Jose Builes**, CTO at tugesto (VISMA Group)

Professional experience

tugesto (VISMA group)
Full-Stack Engineer | June 2021 - Present

- **Onboarding Lead:** Led technical onboarding for +25 new hires, scaling the team from 12 to 30 developers, setting up clean code standards across the department.
- **Product Owner:** Worked in +13 projects and managed 4 as its product owner, such as private APIs and the public website, developing the original Vue.js solution alongside UI/UX and Marketing teams.
- **Acquisition by VISMA:** Joined the CTO in tech meetings to explain our architecture to VISMA executives, supporting the company's acquisition.
- **AI Integration Leadership:** Led the team's shift to new AI tools, bringing in methodologies like Spec-Driven Development (SDD), custom Skills and MCPs, speeding up coding by an estimated 40%.
- **Modernization of Legacy Projects:** Migrated our legacy PHP project to Laravel 10 and completely rebuilt the pricing configurator boosting performance and reducing security risks by 50%.

Servinco (Internship)
IT Technician | March - June 2018

- IT Support Technician
- Maintained servers and hardware infrastructure ensuring system stability.
- Provided remote technical support and IT troubleshooting for clients.

Education and certifications

Web Application Development
Higher Vocational Training (HND) - IES Camp de Morvedre (2018 - 2021)

Microcomputer Systems and Networks
Vocational Training - IES Camp de Morvedre (2016 - 2018)

AI Agents and Workflows
Certification by OpenAI (2026)

AI Fluency: Framework & Foundations
Certification by Anthropic (2026)
